

Sandals and Beaches Resorts COVID-19 Testing for Departure (Complimentary until March 31,2021) OFFICIAL STATEMENT

Recently, the U.S. Centers for Disease Control and Prevention (CDC) has announced that effective January 26, 2021, all international travelers (including U.S. citizens) will be required to produce a negative COVID-19 PCR or antigen test (based on US travelers only) within 72 hours of their departure back home. This is in addition to requiring a negative COVID-19 test before entering the country.

To ensure that this is of minimal disruption to your client's vacation, we have arranged the ability to have complimentary testing conducted through March 31st, right in the comfort of their resort. Tests will be conducted by approved and practiced medical professionals with maximum convenience and minimal distraction to your client's overall vacation experience. As this has been an established requirement for other visitors from around the world, we want to assure you that our team is experienced in ensuring this process is as smooth and effortless as possible.

Once at the resort, our team will assist them without difficulty to make the arrangements required to schedule their onsite COVID-19 test at the resort. This will be done at least 72 hours prior to departure and test results will be available within 24-48 hours.

Please reach out to our reservations department for any questions regarding your bookings.
